You spend \$5,000 more in fuel costs over 5 years compared to the average new vehicle.

\$2,350

This vehicle emits 491 grams CO₂ per mile. The best emits 0 grams per mile (tailpipe only). Producing and distributing fuel also effects emissions; learn more at fueleconomy.gov.

Actual results will vary for many reasons, including driving conditions and how you drive and maintain your vehicle. The average new vehicle gets 27 MPG and costs \$6,750 to fuel over 5 years. Cost estimates are based on 15,000 miles per year at \$2.80 per gallon. MPGe is miles per gasoline gallon equivalent. Vehicle emissions are a significant cause of climate change and smog.
